

# WS45-2 WS45-4

## Waste system for DE5245

WS45-2 which DE5245BCR1D

WS45-4

Specifically developed for the card dispensers DE5245 serie when the capture of the card is requested.

### Operating

The shutter positioned at 45° toward the front allows to present the card in a bin accessible to the user. When the shutter is positioned at 45° to the rear the card falls into the waste bin. It's captured.

The mechanism is controlled by the electronic of one of the DE5245 and it's activated by the capture command.

### Applications

- Vending machine for sim card of mobile.

### Specifications
